Difficulty	Name	Skills	Completion	
Trivial	A little something to get you started	Web	1 / 1	Start Hints Terminate

Upon starting the level, I am introduced to a webpage with just text:

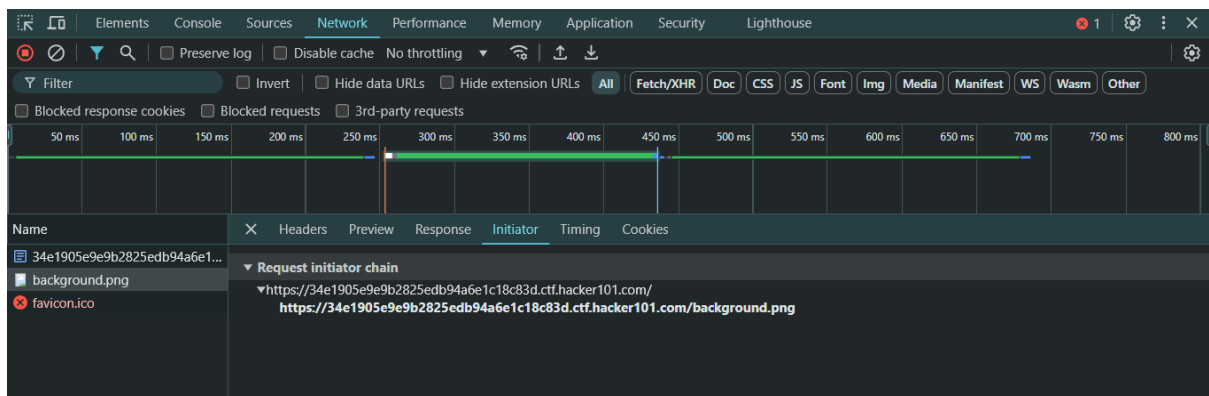

I inspected the page using the inspect option in the browser.

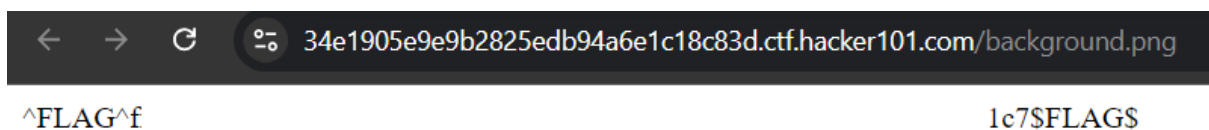

I extended the body and styles in the html. I noticed the background – image has url variable which needs inspecting. The url suggests the website's url is searched with /background.png

I checked the network tab in chrome and refreshed the website to see the if there are any requests that the website sends.

The website sends a GET request to the url with the /background.png so I searched it up and found the flag:

The flag is removed so you can have a go at doing this yourself!
